Terms of Use of iCert's Certificate

1. This certificate and the valid photocopies thereof, may be used as proof of certification of knowledge and skills ONLY for the cognitive subjects listed in it, based on the General Regulation of the Certification of Persons and the corresponding Special Regulation of Certification of Persons.

Certification requirements

- The certification assesses the content of the 5 modules of the DigiBuild training
  - We recommend completing the programme on the platform first (https://digibuild-vle.eu/login/index.php)
- All communication with the certification body is in English
- The certification exam can be taken in English or Spanish

Prerequisites:

- A computer to take the exam
- **A good internet connection.**
- **Camera and speaker/microphone** (built into a laptop or connected to a desktop), so that the proctoring process can run without problems.
- A computer running **Windows 10 or later** with the latest updates installed. Mac, Windows Vista, Windows XP and Linux are not supported.
- Permission to install an application on your computer. This application blocks all other applications and only allows the exam to run.
- Have your **ID card or passport** (the official ID document you gave in your application) at hand, so that the proctor can verify your identity.

Important note: You may need to temporarily disable your computer's security (antivirus or firewall) during the exam.

About the exam

- All emails you receive will be in **English** and in Greek time (EET)
- 30 questions → 70% needed to pass
  - 45 minutes maximum to complete the exam

- The exam is supervised remotely by a live “proctor”, so exam sessions start at fixed times. Choose your time slot carefully

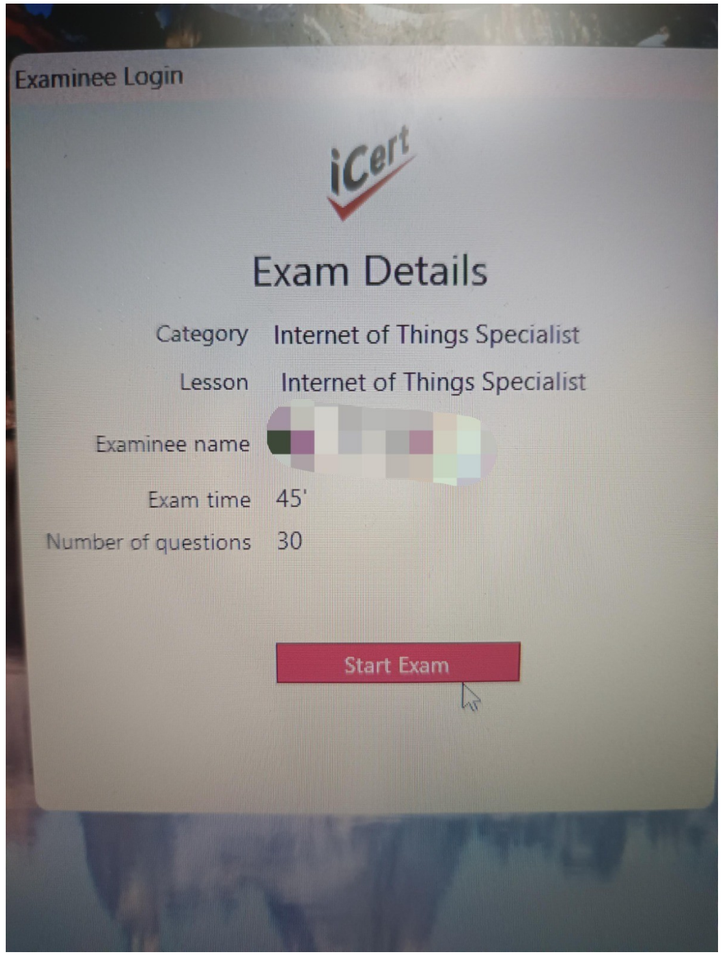

- You must be alone, in a private room, while taking the exam

How to register for the certification exam

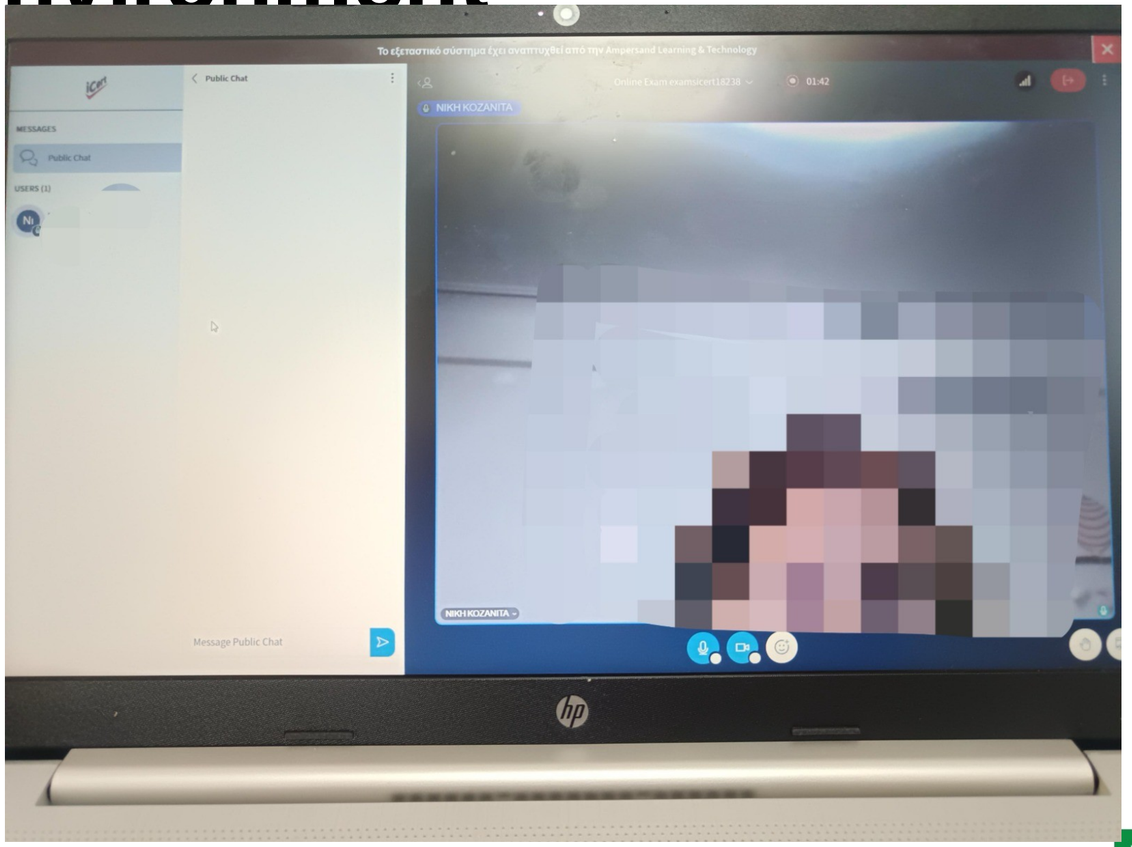

- Email **info@icert.gr** to register for your exam, with the subject line **“DigiBuild Certification Exam Registration”**
  - CC: **belen.gonzalez@defoin.es** and **chstamataki@eurotraining.gr**
  - Attach the completed **registration form** (available at digi-build.eu) and state your exam language: English or Spanish
- i-Cert will reply by email, in English, with the available dates and times, in **Greek time (EET)**
- Confirm your slot, install the exam application and test your camera, microphone and connection in advance
- On exam day, log in a few minutes early with your ID document at hand
